

MANIK SETHI

Frontend Developer | Web Development Enthusiast

+91-7495092553 | maniksethi222@gmail.com | Sonipat, Haryana, India | github.com/maniksethi222

PROFESSIONAL SUMMARY

Frontend Developer and BCA (CTIS) graduate with hands-on experience building responsive and user-friendly web applications using HTML5, CSS3, and JavaScript. Strong foundation in C, C++, Object-Oriented Programming (OOP), and Database Management Systems (DBMS). Passionate about creating efficient web solutions and eager to contribute technical skills, problem-solving abilities, and a continuous learning mindset in an entry-level web development role.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6), React, C, C++

Concepts: OOP, DBMS, Responsive Web Design, REST APIs

Tools & Platforms: VS Code, Git, GitHub, Chrome DevTools

Cloud: Cloud Computing (Fundamentals)

EDUCATION

Bachelor of Computer Applications – CTIS

2023-2026

Panipat Institute of Engineering and Technology, Panipat, Haryana

CGPA: 8.27 / 10.0

PROJECTS

Snake Game – Browser-Based JavaScript Game

2026

- Developed a fully functional Snake Game using vanilla JavaScript with smooth HTML5 Canvas-based rendering.
- Implemented core game mechanics: snake movement, food spawning, collision detection, score tracking, and game-over logic.
- Applied keyboard event handling and optimized game loop for a responsive, lag-free experience with restart functionality.

Tech Stack: HTML5, CSS3, JavaScript

Cynthia Ugwu – Portfolio Website Clone

2026

- Recreated the award-winning portfolio of product designer Cynthia Ugwu, replicating its premium visual aesthetics and smooth animations.
- Implemented scroll-triggered animations, cursor effects, and dynamic transitions using GSAP and vanilla JavaScript.
- Achieved pixel-perfect responsive layout with advanced CSS techniques including custom properties, flexbox, and fluid typography.

Tech Stack: HTML5, CSS3, JavaScript, GSAP

Weather Now – Real-Time Weather Web App

2026

- Built a responsive weather app that fetches live data (temperature, humidity, wind speed, conditions) via OpenWeatherMap API.
- Implemented city-based search with input validation, dynamic weather icons, and real-time DOM updates on every query.
- Handled async API calls using Fetch API with proper error handling for invalid cities and network failures.

Tech Stack: HTML5, CSS3, JavaScript, REST API

CERTIFICATIONS & TRAINING

Cloud Computing Bootcamp

2025

Completed structured training covering cloud fundamentals, deployment models, and service types (IaaS, PaaS, SaaS).

Web Development Training Program

2025

Codec Technologies – Completed a structured web development course covering frontend technologies

KEY SKILLS

Effective Communication | Team Collaboration | Problem-Solving | Quick Learner | Attention to Detail
